466 bachelor’s graduates
250 master’s graduates
32 Ph.D. graduates
The School of Informatics and Computing’s Accelerator Corporate Giving Program is a relationship-enhancing investment opportunity that accelerates a company’s ability to address their specific, strategic needs. Scholarship dollars generated from Accelerator help to recruit, retain, support, and graduate future tech industry leaders. For more information on strategically investing with the Accelerator Program, contact Gina Gallagher, Senior Director of Corporate and Foundation Relations, at ggallagh@indiana.edu or 812-856-1847.

Notes
The Hiring and Post-Graduation Plans Survey and the Internship Survey are annually administered by the School of Informatics and Computing. In the months leading up to and following the end of the academic year, students are contacted by email and phone and asked to complete the online survey(s) that apply to them. LinkedIn and Facebook profiles of graduates as well as employer reported hires were used to contribute to total knowledge rates.
