

5.4 School of Informatics and Computing (SoIC) BUDGETARY AFFAIRS COMMITTEE

Voted January, 2015

5.4.1 ROLE

The SoIC Budgetary Affairs Committee (BAC) represents faculty and acts to ensure transparency in the budget process in the School and provides the faculty a role in budgetary planning. The BAC will meet with the Dean and relevant administrative designees at least once per semester to review previous, current and projected budgets provided by the administration in time to provide for faculty comments. The BAC may also meet other times, with or without administrative participation, as appropriate to its activities.

5.4.2 MEMBERSHIP

The Budgetary Affairs Committee will include one tenure track elected representative per unit on the Bloomington campus. Members are elected according to the unit bylaws in a secret ballot. Members serve staggered three-year terms, commencing on July 1 of each year. When a vacancy occurs, the appropriate unit will elect a replacement for the remainder of the term. Approximately one third of the BAC is elected at the end of each academic year. The BAC, when it first convenes, selects its own Chair, from within its elected ranks. The unit Chairs, Dean, Executive Associate Dean and the Director of Finance are ex-officio non-voting members of the Committee. These non-voting members attend at the discretion of the voting members and will be invited at least once a year.
